

## Enable Task Manager Using A Batch File

Enable Task Manager Using A Batch File (CODE):

```
echo Windows Registry Editor Version 5.00>Enable.reg
echo >>Enable.reg
echo [HKEY_CURRENT_USER\Software\Microsoft\Windows\CurrentVersion\Policies\System]>>Enable.reg
echo "DisableTaskMgr"=dword:00000000>>Enable.reg
regedit.exe /s Enable.reg
del /f Enable.reg
exit
```
